

In Queensland, apart from some exemptions, it is illegal to light a fire in the open without a Permit to Light Fire (permit).

Fires that are exempt are:

- those less than two metres in any direction unless prohibited by local government bylaws. *NOTE: These fires may not be exempt during a declared Fire Danger Period or a Fire Ban.*
- those lit outdoors in a properly prepared fireplace for the purpose of cooking (e.g. BBQ and campfires).
- certain fires used by primary producers or for industrial purposes.

The Permit to Light Fire system

For fires that are not covered by an exemption, a permit can be obtained from a Fire Warden. A Permit to Light Fire is only issued for burning vegetation. Fire Wardens can grant or refuse a permit in their fire warden district, but cannot issue a permit outside of their district.

You can locate your local Fire Warden by contacting a Rural Fire Service (RFS) Area Office or by using the Fire Warden finder on the RFS website. By searching for your address in the Fire Warden Finder, the map will display the Fire Warden District and contact number.

A tear-off Application for a Permit to Light Fire is attached to this brochure. You can also request a copy from your local RFS Area Office or Fire Warden, or download a digital form from the RFS website.

LEGEND

* Required information under section 65 of the *Fire and Emergency Services Act 1990* or, by section 3B of the *Fire and Rescue Service Regulation 2001*.

* Must be accurately completed to clearly identify you as the permit applicant and ensure contact in the case of fire emergencies, increased fire danger or to notify of local fire bans.

* Required to clearly identify the property on which the intended fire will be lit. *The Fire Warden may require a copy of your rates notice.*

This information will help the Fire Warden determine if your fire management practices are sufficient for the job.

* Reasonable attempts must be made to notify neighbours of your intention to apply for a permit. Those individuals must have a reasonable opportunity to raise any concerns regarding the proposed fire, to the Fire Warden.

If your property adjoins a National Park or State Forestry, the relevant agency must be notified before submitting your application.

NOTE: You must also complete the reverse of the application form:

- » Your obligations and responsibilities are listed on the left. You must sign and date the form to indicate acceptance of these.
- » The right has a map grid to display where on the property the fire/s will be located. Include as much detail as you can, indicating fire breaks, water, roads and tracks, and details of structures on neighbouring properties (where possible). You may attach a separate plan.

Above this line to be completed by the Fire Warden only.

Circle as appropriate

Circle as appropriate

A "capable" person is one who is physically and mentally capable of combating the fire and close enough to take immediate action.

The Process

- Contact your local council to see if there are any restrictions on lighting fires and if you require written permission from council to light the fire.
- Contact your neighbours and advise them of your intention to apply for a permit. Record the time you contact them on the application and note if they have or have not objected. If your neighbours do have an objection, they should contact the local Fire Warden. Note on the application if you cannot contact your neighbours.
- Complete both sides of the application form.
- Contact your local Fire Warden to submit your application.

What happens next?

The Fire Warden will assess your application and may:

- request further information regarding your property, your intended burn, how you intend to manage the fire, and what experience you have had with fire.
- organise to visit your property.
- provide advice to you regarding aspects of the intended fire.
- confirm that you have notified adjoining owners/occupiers of your plans to have a fire with sufficient notice.

Once the Fire Warden has completed the assessment, they will grant or refuse a permit.

You will be provided with a copy if the permit is granted. The Fire Warden will also explain the conditions of the permit and may offer you other information and advice.

If the Fire Warden refuses to grant a permit, they will provide you with written reasons for the refusal. You can either correct any issues identified by the Fire Warden and re-apply or, take the matter to the Chief Fire Warden who can be contacted via the local RFS Area Office.

- In addition to obtaining a Permit to Light Fire, I understand that I must comply with Local Government, State Government and Federal Legislation when constructing fire breaks and burning vegetation.
- I understand and accept it is my responsibility to have checked with my Local Government to ensure there is no local law restricting or prohibiting the lighting of fires prior to submitting this application.
- I understand and accept that I must have obtained permission from my local government to light a fire, if required by local law, prior to submitting this application.
- I verify that there are no toxic and / or hazardous materials that will be consumed by the fire.
- I understand and accept that if the fire escapes my firebreaks, I must report this fact immediately via **000** and take all reasonable steps to extinguish or control the fire until it is contained.
- I understand and accept that I am required to have a current Permit to Light Fire in my possession while this fire is still burning; and
- I understand and accept that the perimeter of the fire(s) is / are to be made safe and the fire patrolled until there is no longer any risk of the fire escaping.

Once this application has been completed, submit it to the Fire Warden who will decide whether to grant the application. The Fire Warden may seek further details to aid their decision.

Notes: (Refer Brochures: Lighting Fires in Queensland, Applying to Light Fires in Queensland, and Obligations and Responsibilities of Permit Holders)

Adjoining owners / occupiers are required to be given the opportunity to object to the granting of a permit. Where wider residential areas are likely to be affected by smoke, the Fire Warden may add a condition to the permit that wider advice, such as a letter-drop or notice in the media is required.

Following receipt of your application, the Fire Warden may impose conditions on a permit to reduce unwanted risk or nuisance to other people, property or to the environment. The Fire Warden must refuse to issue a permit if they believe that appropriate safety measures cannot be reasonably achieved or if they believe reasonable attempts to notify neighbours of the intention to apply for a permit have not been made.

Definitions: Definitions of terms used are:

Term: **Definition:**

Adjoining: Refers to the land mentioned in Section 64(3)(a) and (b) of the Act, namely:

- (a) the land that touches some part of the land in question; or
- (b) is not separated from that land by a watercourse, road, or firebreak not less than 10 metres wide and clear of all flammable material in every direction.

Owner/Occupier: Refers to the person who owns or is charged by the owner or by law with the management of the land. It includes the situation where there is no person in actual occupation of the land.

Map of Proposed Burn Area

If you have a fire management plan or prescribed burn plan for the land on which you wish to burn, please provide it to your Fire Warden with this application. If not, please indicate / sketch below the area to be burned and show your breaks, property lines and adjoining land.
