

Fire Escape Planner

FIRE can strike at any time.
Create your home fire escape
plan to be ready all the time.

**If fire breaks out in your home, it's too late then to plan your escape.
Think ahead and plan how you will get out.**

To survive, it is essential you have a fire escape plan. Follow these easy steps to make your home and loved ones safer.

1

Draw the floor plan of your home on the grid on the next page. Use the stickers provided to show the rooms and the ways out. Plan two ways out of every room.

2

Place the plan where everyone can see it. Try the fridge.

3

Pick a meeting place outside the home such as the letterbox. This is where your family will gather if you need to evacuate.

4

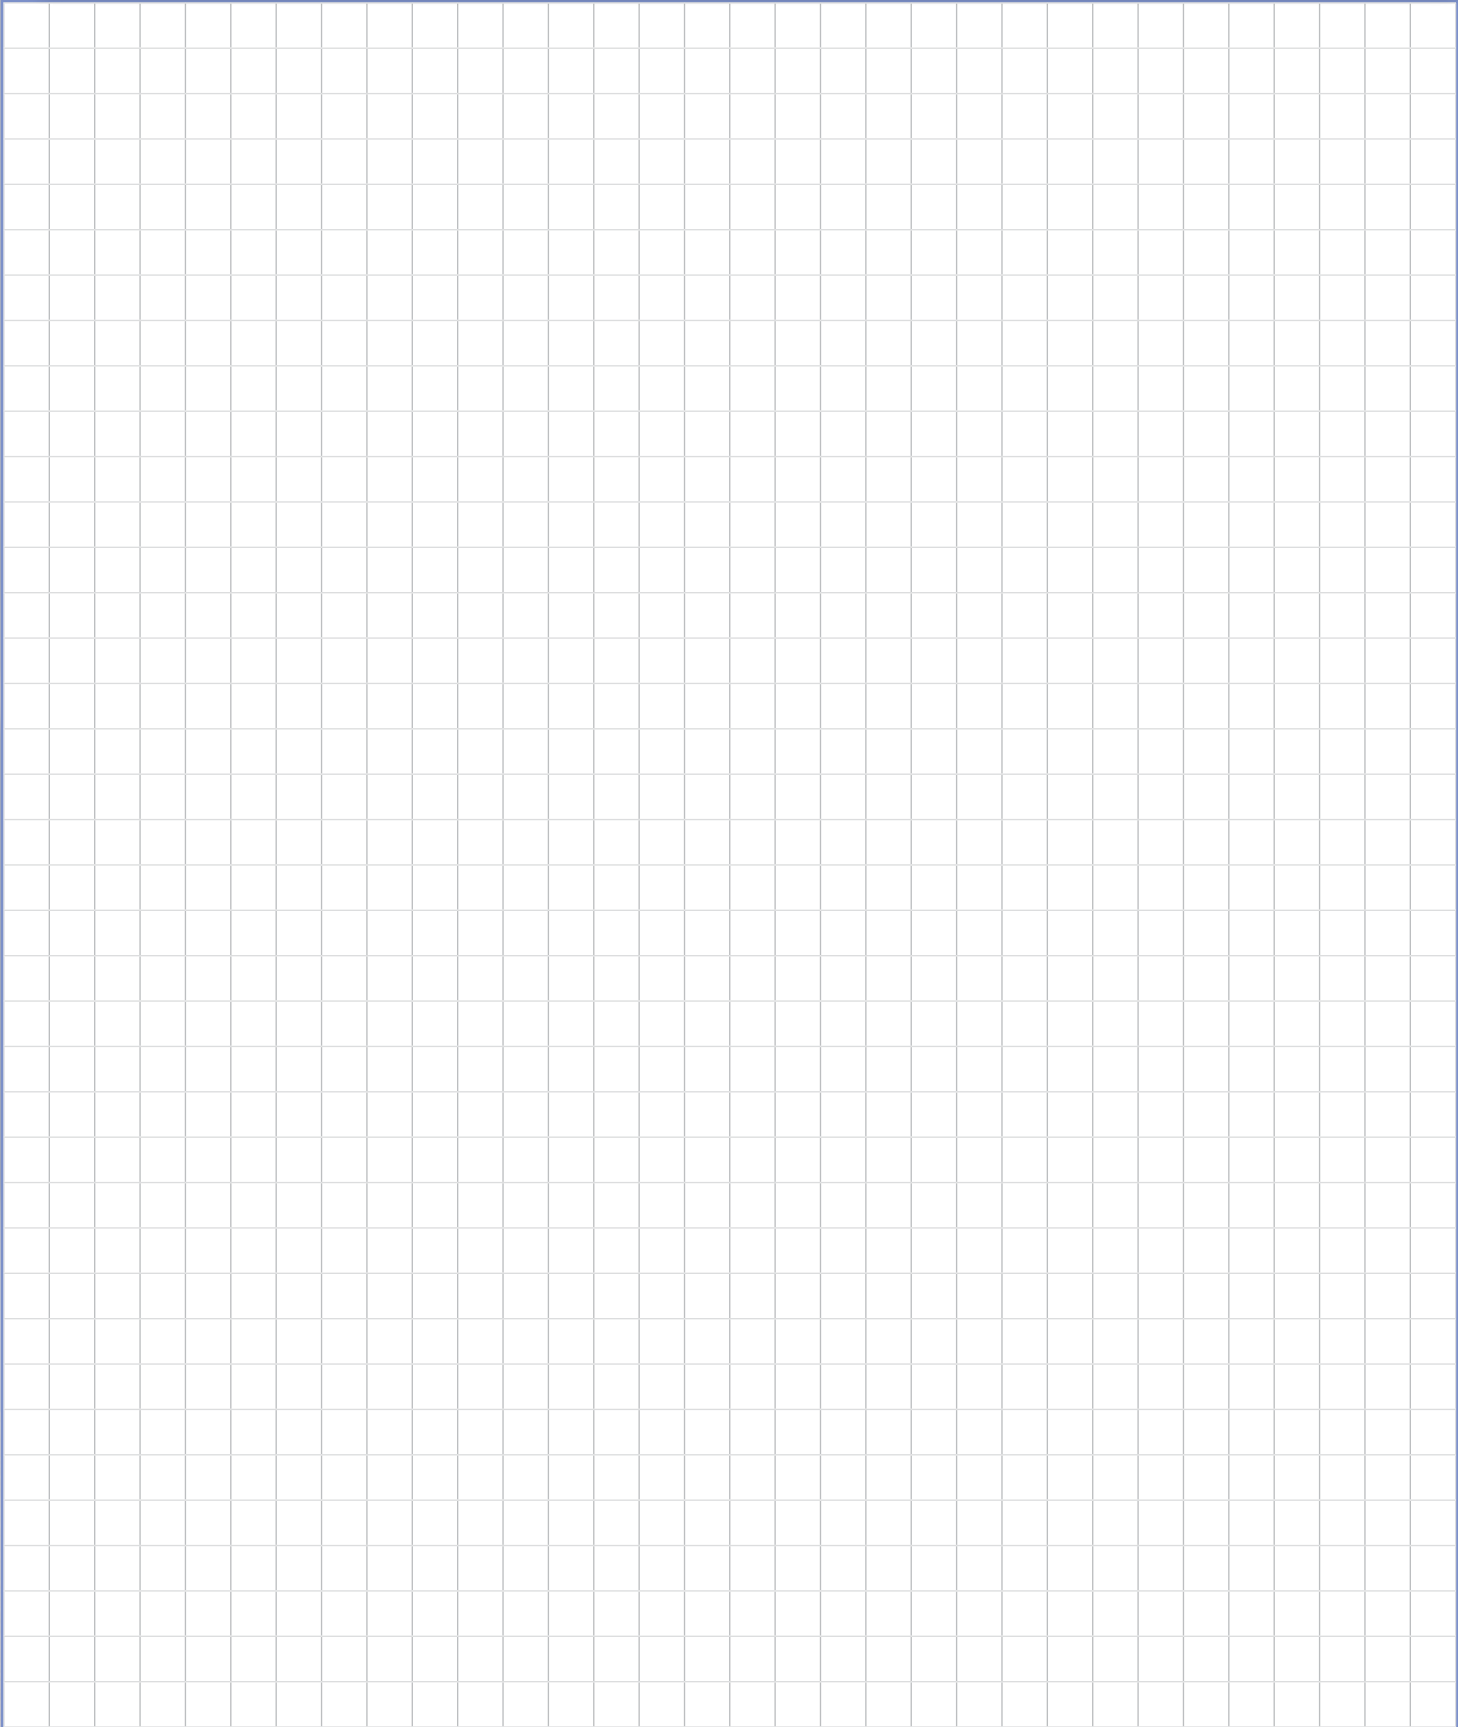

Practise your escape plan at night with the lights on, and then with the lights off. Distance can be hard to judge in the dark, and heavy smoke can make it difficult to find your way out. Remember you need to get down low and crawl to avoid the smoke.

Our Home Fire Escape Plan

Our address: _____

Our phone numbers: _____

A large rectangular area filled with a light gray grid pattern, intended for drawing a home fire escape plan. The grid consists of small squares and covers most of the page below the form fields.

Important Numbers:

| | |
|--|-------------------------|
| Emergency (Police, Fire, Ambulance) | Triple Zero (000) |
| Flood and Storm Emergency Assistance (SES) | 132 500 |
| Poisons Information Centre | 131 126 |
| Hospitals and Health | 13 Health (13 43 25 84) |

Doctor:

Insurance Provider:

Electricity Provider:

Gas Provider:

Phone Company:

Internet Provider:

Queensland Fire and Emergency Services offers the free Safehome program to help Queenslanders identify fire and safety hazards in their homes. Firefighters will visit your home and provide advice on how you can improve your home fire safety.

Call **13QGOV (13 74 68)** to book your free Safehome visit.

One short visit is all it takes to make your home safer.
